

2026 Editorial Calendar

	JANUARY	FEBRUARY	MARCH	APRIL	MAY	JUNE
FOCUS	AUTOMATION	LIFE SCIENCE	MASS SPECTROMETRY	CHROMATOGRAPHY	FOOD TESTING	ENVIRONMENTAL
How to Buy & Best Practices	LABTips: GxP & Data Integrity	Buyers Guide: Assay Kits	LABTips: Better MS Method Development	Buyer's Guide: SEC/GPC	Buyers Guide: NIR for Food QC	LABTips: Sustainability in Products and Culture
Lab Equipment of the Month*	Pipettes	Centrifuges	High res-MS	LC-MS & GC-MS	Incubators	PFAS Detection/Analysis
Expert Q&A	Q&A: Sample Prep	Q&A: Elemental Analysis	Q&A: 'Omics & Personalized Medicine	Q&A: HPLC	Q&A: Food Safety Testing	Q&A: Environmentally friendly Reagents/ Solvents
Additional Topics	• Microplate readers • Sample storage • Tube handling • DNA sequencers • Microplate dispensers	• Microbiology • Pumps • Thermal analysis • Calorimeters • Balances	• AA Spectrophotometers • ICP-MS • MALDI • TOF • Proteomics	• Ion chromatography • SFC • Columns and accessories • Sample prep • Moisture analyzers	• Homogenizers • Bioreactors/ fermenter • pH meters • NIR • Manufacturing • Refractometer	• Water testing • Field testing equipment • Elemental analysis • Particle analysis • Titration

Discover topic options to reach your target audience — contact your Sales Executive for customized partnership solutions!

	JULY	AUGUST	SEPTEMBER	OCTOBER	NOVEMBER	DECEMBER
FOCUS	CLINICAL	MATERIALS TESTING	PHARMACEUTICAL /BIOPHARMACEUTICAL	SOFTWARE/ DATA ANALYSIS	DNA TECHNOLOGY	MICROSCOPY
How to Buy & Best Practices	Buyers Guide: Bioreactors	LABTips: Identifying Metals Contamination	Buyers Guide: Cell Sorters	LABTips: Sample Tracking and Management	LABTips: DNA Extraction	Buyer's Guide: Fluorescence Imaging System
Lab Equipment of the Month*	Biochemistry Analyzers	Battery Technology	Lab Water Systems	AI	PCR	Raman
Expert Q&A	Q&A: Cleanroom Technology	Q&A: Separation Science	Q&A: Hoods and Cabinets	Q&A: Lab Data Management	Q&A: Cell Culture	Q&A: Semiconductors
Additional Topics	• Controls and standards • Point-of-care devices • Infectious diseases • Immunology	• Atomic spectroscopy • Thermal analysis • Metallography • Non-destructive testing • Rheometer/ viscometer • Test and measurement	• Lab refrigerators & freezers • Flow cytometry • Fluorescence microscopy • Blood chemistry analyzers	• LIMS • Image analysis • Sample tracking • Machine learning • Quality control • Data management	• Next generation sequencing • Capillary electrophoresis • Nucleic acid purification • Solid phase extraction	• Scanning probe microscopy • Binocular microscopes • Compound microscopy • Electron microscopy • FTIR

*Lab Equipment of the Month: A quick-read editorial feature spotlighting a key product category, delivered in our signature "Equipment in 60 Seconds" format. Each article gives readers fast, practical insights—what the equipment is, how it's used, why it matters, plus expert tips and common pitfalls to avoid. It's an engaging, highly shareable way to keep scientists up to speed on essential tools for the lab.
